

U.S. Department of Justice

Federal Bureau of Investigation

Clarksburg, WV 26306

May 21, 2019

Mr. Dale Remmers
Mentalix, Inc.
1255 W 15th Street Suite 370
Plano, TX 75075

Dear Mr. Remmers:

The Federal Bureau of Investigation (FBI) Criminal Justice Information Services (CJIS) Division has completed a review of the testing information submitted by Mentalix, Inc. This review was conducted by representatives of the FBI and the MITRE Corporation's image processing laboratory located in Bedford, Massachusetts. Based on the results of this review, the FBI certifies that the equipment listed on the attached certificate is in compliance with the FBI CJIS Division's Next Generation Identification System Image Quality Specifications (IQS) as listed on the certificate.

With regard to this certification, this letter does not serve as proof of the certification and should not be posted on a public-facing Web site. Enclosed is a certificate that may be posted as proof of certification. Additionally, you may include the following statement in informational materials about this product: *The FBI has certified that this product meets specifications listed in Appendix F of the FBI's Next Generation Identification System Image Quality Specifications.* You may not use the name or initials of the FBI in any other manner unless specifically authorized to do so. This letter does not authorize you to use the FBI's official seal for any purpose. This product certification survives any change in company name or ownership.

Please direct any questions regarding this certification to <EBTSSupport@fbi.gov>.

Sincerely yours,

Michael A. Christman
Deputy Assistant Director
Operational Programs Branch
Criminal Justice Information
Services Division

CERTIFICATION OF COMPLIANCE

for

MENTALIX, INC.

Lexmark MS420 series laser printer with Mentalix's CardPrint API Toolkit fingerprint printing algorithm.

The FBI certifies that the equipment described above is in compliance with the following FBI CJIS Division's Next Generation Identification System Image Quality Specifications (IQS):

Appendix F Specifications

This certification process does not constitute an endorsement, but only attests that the product meets FBI standards. Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the IQS over time. As equipment can degrade, the FBI recommends that your company assist customers in the establishment of quality assurance programs and appropriate maintenance schedules for your products.

This certification process is not intended to endorse one entity or implementation over another, but merely to certify that the implementation meets FBI standards. The authenticity of this certificate can be confirmed by checking the online registry at <<https://www.fbi/specs.cjis.gov/>>.
