

U.S. Department of Justice

Federal Bureau of Investigation

Clarksburg, WV 26306

March 28, 2001

Mr. Dale Remmers
Mentalix, Inc.
Suite 110
1700 Alma Drive
Plano, TX 75075

Dear Mr. Remmers:

The Federal Bureau of Investigation (FBI) and the National Institute of Standards and Technology (NIST) have completed a review of the testing information submitted by Mentalix, Incorporated. NIST performed a complete analysis of:

WSQ Implementation:	WSQ
Platform:	Pentium II or Higher
Operating System:	Windows 2000
Compiler:	Intel C++Compiler5.0
Source of Input:	WSQ Certification Data for Windows 2000 CD 3/2/01

Based on the results of the NIST review, the FBI certifies that the Mentalix, Inc. WSQ implementation tested and identified above meets the accuracy requirements in the WSQ Gray-Scale Fingerprint Image Compression Specification. Please note that the software implementation value (sf), within the frame header of the compressed image, will be recorded as 53011. The certification process is not intended to endorse one product over a competitor's product, but merely to certify that the product meets FBI standards, and that between two products which meet FBI standards, the FBI does not recommend one over the other.

Mr. Dale Remmers

Please direct any questions on the certification to
Mr. Tom Hopper, Programs Development Section, via telephone
number (202) 324-3506.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas E. Bush, III". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Thomas E. Bush, III
Section Chief
