August 21, 2001

Mr. Dale Remmers
Mentalix, Inc.
Suite 110
1700 Alma Drive
Plano, TX  75075

Dear Mr. Remmers:

The Federal Bureau of Investigation (FBI) and the
National Institute of Standards and Technology (NIST) have
completed a review of the testing information submitted by
Mentalix, Incorporated.  NIST performed a complete analysis of:

| | |
|---|---|
| WSQ Implementation: | WSQ |
| Platform: | HP-UX 9000 Series 700 |
| Operating System: | HP-UX 10.20 |
| Compiler: | HP C Compiler |
| Source of Input: | WSQ Certification Data for Windows 2000 CD 7/26/01 |

Based on the results of the NIST review, the FBI
certifies that the Mentalix, Inc. WSQ implementation tested and
identified above meets the accuracy requirements in the WSQ Gray-
Scale Fingerprint Image Compression Specification.  Please note
that the software implementation value (sf), within the frame
header of the compressed image, will be recorded as 53014.  The
certification process is not intended to endorse one product over
a competitor's product, but merely to certify that the product
meets FBI standards, and that between two products which meet FBI
standards, the FBI does not recommend one over the other.

Mr. Dale Remmers

       Please direct any questions on the certification to Mr. Tom Hopper, Programs Development Section, via telephone number (202) 324-3506.

                    Sincerely,

                    Thomas E. Bush, III
                    Section Chief
                    Programs Development Section
                    Criminal Justice Information
                      Service Division
